DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22, 24, and 26-80 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's claimed package assembly, particularly relevant as hardware configured in accordance with IEEE 1394, wherein the invention can be distinguished from prior art by "modules" (e.g. a link layer integrated circuit chip "module" and a physical layer integrated circuit chip "module") that are capacitively coupled by first and second conductive surfaces, in various embodiments [e.g. Figs. 3-7], in the context of applicant's written description.

Applicant's claimed invention is distinguished from prior art, for example, by the claimed physical arrangement of modules that are capacitively coupled by conductive surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
